

Letter from Marian McPartland - January 19, 2008

“I have known Krista Seddon for at least six years and have found her to be a wonderful friend and co-worker. She is brilliant at transcribing the music that I improvise on CD and she is, herself, a fine pianist who plays professionally and accompanies other artists with great feeling. Whatever she undertakes will be accomplished with perfection. I would heartily recommend her for any musical position she may be considered for.”
